If there is going to be"trouble", let's have it now. Now,while we are still healthy, while the country is still strong, when we can still win. We, and the country,are growing weaker every day like this. Less money, less food, less Freedom. And it's very easy to see the Jackals

who exploit and thrive on it. The enemy and their methods have never been more in the open. Any further delay only strengthens them and weakens us. Inaction will allow them to hide again from a stronger position.

None of us want violence, but that doesn't mean we don't understand it or how to apply it.
They have pushed, and pushed, and pushed, for decades. Until the very stench of their actions chokes you.

This lockdown should change the way things are done. The impact on society will be felt for years. Force you under penalty of jail to pay taxes, because you "live in this society!" Said by all the people who are paid by those taxes.

Then when society breaks down, they keep every dime for themselves, and give more to their friends and to the people who never paid taxes to begin with. They could suspend income tax during this "crises". Make it a little easier to survive. If you are one of the lucky people who

are still working, if the Government has deemed you "essential", (what does that make us?) Keep paying those taxes! Congress needs another raise. I sincerely hope the way people view "paying taxes" changes after this.

So, it's now or never. The largest countries who would take advantage of our weakened position are similarly weakened, it's every country for themselves. While Citizens are cleaning out our pantries and closets, it's time to clean out our country.

I'll say it again, we don't want violence. I Pray for every one of us. Is it time? Everyone's perspective is different. Just imagine if the DS plans work. If they can cheat enough to control Congress and Senate, the next Dem President?

We have a real President now, imperfect like all of us, but guided by the Lord in a real fight, Good against evil. Subtlety be damned, PC opinions, and "hurt feelings?" Compared to what they want to do to you? To your children?

If this is going to happen, the stage is set. It must be quick and decisive, and the evil destroyed. If not, when the pendulum swings the other way, we are done.

Dr. Fauci, why are you talking to Bill Gates daily, and why are you using your wife's cellphone?🤔

An open question for New York Governor Andrew "nipples" Cuomo: Sir, going by your statements of city wide shortages of crucial medical supplies/meds. And your BAN of hydroxychloroquine. Sir, can you tell us why/how the "muslim community patrol" is able to hand out masks, gloves,

TheDS has let their overall plans slip. Escalate the virus as much as possible. Even helping it spread, explains why certain nursing homes/states seem to be affected more than others. With holding medication/supplies to ensure it does. (Reminds me of the old angel of death cases)

Release prisoners, this saves them money on care/housing. And causes crime to rise, giving them another excuse to crack down and grab power. Probably learned it fr Castro cleaning out his jails.

Homeless groups in cities across this country number well over 50. Some in the 100's. Balt., L.A., San FransickO, NY. Funny how it's spreading thru that population so quickly but nothing is being done or reported, only when there is a body to deal with. Seems certain politicians

have found a answer to their city/state homeless problem 🤔 In Baltimore we are organizing mobile first aid/health checks for these groups, as well as elderly, shut ins, shelters, disadvantaged children. We are trying to provide care, test
